Help *INVESCO* Help You and Your Friends

Have you held back for some reason from having *INVESCO* manage your IRA or brokerage account at Charles Schwab? Have you hesitated from referring others to our portfolio management services because you were not quite sure?

Hesitate no more! Our new "Performance Pledge" to you:

If your stock portfolio underperforms the market (S&P 500) during the first three years of management we will refund the difference up to 100% of all fees billed.

We feel we haven't earned our fees for any client who underperforms the market. Our proven portfolio management techniques show we would have paid out only three times under this program since June 2000, and two of those three times would have been only part of our fees. We are very confident our client returns will continue to outperform the market.

So call Keith Nyborg right away at 847-824-4078 or email keith@invescollc.com for complete details and how you and/or your friends can benefit!
